

**KML22 RANGE**

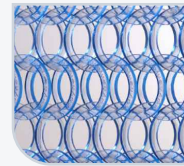

Kaynemaile Limited's flagship product, KML22, is a unique, seamless polycarbonate mesh. As well as offering innovative, functional design solutions to the fields of architecture and design, KML22 offers tremendous future potential for a range of commercial and industrial applications that depend on a lightweight, durable and versatile mesh.

**WATER AND ICE**

The purity, clarity and fluidity of water are all the elements of our KML22 Water & Ice range, inspired by New Zealand's snow-topped mountains and crystal clear rivers.

## TECHNICAL PERFORMANCE

AS 1530 pt2 FLAMMABILITY OF MATERIALS TEST RESULTS for KML22 PC SEAMLESS MESH;

Test for flammability of materials KML22 achieved a Flammability Index result of (FI)=6. This offers KML22 seamless mesh for building material use in public places, bars and office buildings in Australasian regions. KML22 seamless mesh is produced from flame resistant (UL94 V-O at 3mm) polycarbonate. Currently recommended for internal use only.
